MATRYCS

Modular Big Data
Applications for
Holistic Energy
Services in Buildings

ESCO SUPPORT SERVICES

OBJECTIVES

- To facilitate an effective calculation process for the verification of energy savings, based on International Performance Measurement Verification Protocol (IPMVP).
- To offer trustworthy Energy Performance Contracts.
- To reduce the Return on Investment in the implementation of Energy Conservation Measures (ECM).

ANALYTICS SERVICES

Measurement and Verification of Energy Savings.

TARGET AUDIENCE

- ESCOs
- Building managers
- Dwelling owners
- Investors

BENEFITS

We provide Energy Service Companies (ESCOs) and other stakeholders precise calculations of energy savings in order to provide a clear picture on the energy performance after the implementation of energy conservation measures.

We make best use of extensive amount of historical and real time data
